Portfolio: <https://prashant-github-in.vercel.app/>

SUMMARY

Computer Science student with strong academic performance (CPI: 9.03) and hands-on experience in Machine Learning and data analysis. Built real-world ML models for healthcare prediction and stock forecasting. Skilled in Python, SQL, and problem-solving with a focus on data-driven solutions.

SKILLS

Concepts: Machine Learning Algorithms, Feature Engineering, Data Preprocessing

Languages: Python, Java, SQL

Data Science: Pandas, NumPy, Scikit-learn, Data Cleaning

Tools: MySQL, Git, GitHub

Core: Machine Learning, Data Analysis, Problem Solving

PROJECTS

Diabetes Risk Prediction Model

- Developed ML model using healthcare dataset (BRFSS)
- Evaluated using accuracy, precision, and recall metrics
- Tools: Python, Pandas, NumPy, Scikit-learn, MERN Stack
- Live : <https://dia-predict-rust.vercel.app/>
- Github : <https://github.com/Prashant-bro/DiaPredict>

AlphaPredict – Stock Price Prediction

- Built Random Forest model for next-day stock prediction
 - Improved prediction performance through data preprocessing
 - Tools: Python, Pandas, Scikit-learn
 - Github : <https://github.com/Prashant-bro/Stock-Price-Prediction>
-

EDUCATION

B.Tech in Computer Science & Engineering
ITM (SLS) Baroda University, Jarod, Gujarat
CPI: 9.03 | 2nd Year

CERTIFICATIONS

- Introduction to Data Science – Cisco Networking Academy
- Oracle Academy – Database Foundations & Java Fundamentals
